

Fluent Corrections	✓
Identify behaviours that must be corrected by reviewing ATMs and/or video of the students in class.	
For each behaviour identify strategies that you will use to correct the students. (See Behaviour for Learning: Teach like a Champion resources)	
Identify an initial target behaviour for which you wan to develop the habit of consistent corrections.	
Video record a lesson.	
Watch the video and tally how often students engage in the target behaviour and how often you correct it.	
Keep videoing lessons and tallying behaviours and corrections until you consistently correct the target behaviour.	
Repeat the process with other behaviours that need to be corrected.
