

Cooperative Learning Strategy: Turn to neighbour

Students are organized into pairs and, at various points in the lesson, prompts students to turn to their partner and discuss what they are learning. Checklist for this activity:

Students know:	✓
Who their learning partner will be before they start.	
What tasks they need to do before they turn to their neighbour.	
What tasks they need to do with their partner.	
The outcome they need to produce for the class at the end of the conversation.	
How they should communicate with each other, particularly listening and talking.
